

Lightweight clamping tower

Zeropoint Quickclamping cylinder angle or cube:

- Lightweight construction structure
- Vibration resisting concept
- Up to 60% weight saving
- No stability losing compared to a traditional construction structure.
- Realizable with all Zeropoint Quickclamping cylinders
- Possibility to integrate Zeropoint Quickclamping cylinders for automatised solutions

Stainless

Extreme light clamping tower: High-speed Horizontal manufacturing center

Realizable with all Zeropoint Quickclamping cylinders
Hydraulic release or
Pneumatic release
